

How to edit Email notifications

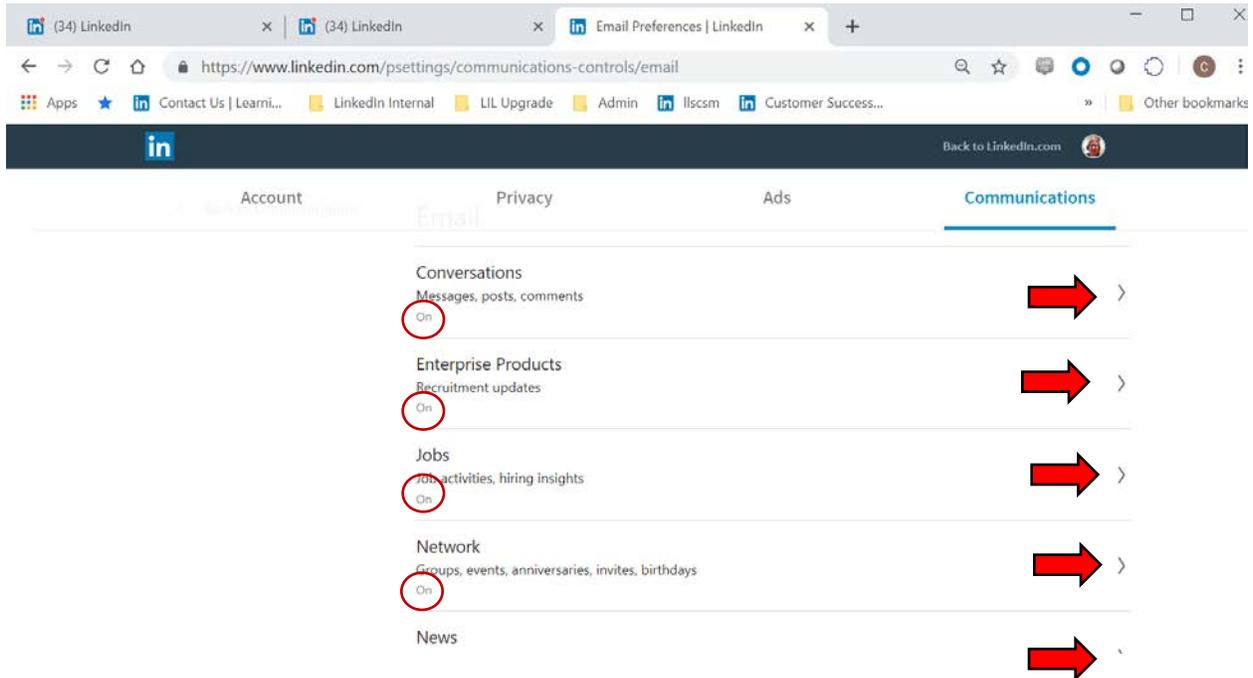

1. Login to LinkedIn.com
2. Click on Me and select Setting & Privacy

3. Click on Communications

4. On this page you can see which notifications are on. To turn one off, click on the arrow next to the communication type. (This needs to be done for each heading)

5. Toggle the On button to Off to turn off the entire group of notifications. You can select the pencil to control each communication type individually.
