## Self Trust:

Increasing Your Credibility and Influence at Work

**Build confidence in yourself, restore trust with others, and act with integrity.**

In a work setting of low trust, people's unseen agendas or motivations generate suspicion and ultimately hinder getting things done. At the organizational level, trust-related problems like redundancy, bureaucracy, fraud, and turnover bog down productivity, divert resources, and squander opportunities. But when individuals and their leaders trust each other—and are trusted by others—communication improves and productivity accelerates as attention is redirected toward team objectives.

This LiveClicks™ webinar helps individual contributors and leaders identify and address “trust gaps” in their own personal credibility, and in their relationships at work. Participants discover how to avoid the costs of low trust, build confidence in themselves, restore trust with others, and act with integrity.

### Program Focus:

By experiencing this webinar, participants learn to:

- Act with integrity
- Set a positive example
