THE HISTORY AND CULTURE OF MISSOURI POLITICS

*A SPECIAL 1-DAY HISTORIC LECTURE PROGRAM

Sponsored by: The Center for Management and Professional Development
In Conjunction with Missouri State University

This one-day program focuses on Missouri’s political culture and the overall stability of politics in Missouri state government. The program will compare Missouri’s political culture to other states; provide information about the constitutional history of the state — with particular emphasis on the initiative and referendum process; and examine the impact of political institutions on public policy. Ideally, the program will help participants understand Missouri’s “big” political picture. Specific attention will be given to:

- Assessing the impact of historical events and cultural norms on public policy
- Understanding the constitutional limitations on public policy; and
- Drawing linkages between partisan politics and public policy
